More about the artists/

Porest is Mark Gergis creating controversy through performance. His work as Porest has floored audiences around the world with shock and awe. Mark is also known for being one of the key principals behind the Sublime Frequencies label. This is a rare Michigan performance for this London based artist.

Lime Rickey International returns to Entropy for this special performance. Her work is part mystery, an assault of the senses, and elements of subconsciousness to create her own mythocracy. **Devotional** opens the evening with a raga only indigenous to North Redford. Devotional is Andrew Coltrane (AC, Cold Turkey) on electric sitar, Jeff Meier (Detroit Cobras, Ultimate Ovation) on tenor guitar, and Mike Khoury on amplified viola. This concert is also a **#NotSilent** event made to raise awareness of the plight of Palestinians suffering under Israeli occupation.

More about Arab.AMP/

A avant art activation **M** music myth movement **P** performance poetry praxis

Arab.AMP is a platform for the work of Arab Experimentalists working in the Arab world and its diaspora. Arab.AMP is curated and directed by Leyya Mona Tawil, who has operated in the field of performance and music for over 20 years. Tawil articulates Arab Experimentalism as a field that accumulates regional and diasporic realities through transgressive arts practices. Arab.AMP celebrates the plurality of Arab voices operating in futurism, the Avant Garde and experimental forms. At this time, Tawil is prioritizing live art, performance and concert programming. Arab.AMP has partnering venues throughout the US and internationally. Our upcoming season is a series of discrete events throughout the US, culminating in a multi-city tour for our first artist from abroad, Dirar Kalash.
